

Waterproof Planter Liners

The Chandler Company's fiberglass planter liners and containers are a versatile, cost effective landscape planting product designed specifically for controlled planting and irrigation. They are custom made to fit almost any size or shape to meet your specific needs and will provide superior long term solutions for planter waterproofing. Custom planter liner and container applications are provided with typical installation details. A typical application would be roof-top or patio planting, where there is living or office space beneath and water leaks are a concern.

The Chandler Company has provided waterproof planter liners on projects as large as the Los Angeles International Airport, South Coast Plaza Pedestrian Bridge in Costa Mesa, CA and Monarch Beach Resort in Dana Point, CA. No project, commercial or residential, is too big or too small. The Chandler Company prides itself in their ability to deliver the product on time, enabling their customer to perform as promised. The Chandler Company warrants its products, when purchased new, to be free from defects in materials and workmanship under normal use and service for one year from the original date of purchase. Replacement or repair at the option of The Chandler Company of defective parts shall be the sole remedy of this warranty.

Typical planter liner profiles are as shown below. Custom liners are available upon request:

outside lip liner
